

## How Does Propero Work?

### Real Flexibility

You may choose to complete your course in only a few short weeks, or take the full sixteen weeks provided. Our success coaches are here to help you along every step of the way.

### Earn Credit

Upon successful completion of your Propero course, credits can be transferred to participating colleges and universities nationwide. The American Council for Education (ACE) has a network of over 1,800 participating schools and many colleges and universities outside the consortium also accept Propero credits.

Before enrolling in a Propero course, be sure to check with your Success Coach or Campus/Onsite Dean to confirm that you will be able to receive college credit.

### Before You Begin

Carefully review the title, course description, and course objectives. Familiarize yourself with Propero and the credit transfer process. Check with your Success Coach or Campus/Onsite Dean if you have questions.
